**Perfectionism Defined**

Perfectionism is not necessarily about being ‘perfect’. Ask yourself this question… Is it ever really possible to be 100% ‘perfect’? So, if it’s not about being ‘perfect’, then what do we mean when talk about perfectionism?

Although there’s no perfect definition, we understand perfectionism to involve:

1. The relentless striving for extremely high standards (for yourself and/or others) that are personally demanding, in the context of the individual. (Typically, to an outsider the standards are considered to be unreasonable given the circumstances.)
2. Judging your self-worth based largely on your ability to strive for and achieve such unrelenting standards.
3. Experiencing negative consequences of setting such demanding standards, yet continuing to go for them despite the huge cost to you.

**The Paradox of Perfectionism**

Many people think of perfectionism as something positive. It is often seen as the pursuit of excellence, setting high standards, and working hard to challenge one’s self. People often have good reasons for being perfectionists. They may say that it allows them to be efficient, organised, or prepared for anything.

Although having high standards and goals may help us achieve things in life, sometimes these standards get in the way of our happiness and can actually impair performance. This is the paradox of perfectionism!

The excessive drive to achieve ever-higher levels of performance is self-defeating as it leaves you little chance of meeting your goals and feeling good about yourself. This kind of pressure is likely to cause you to feel constantly on edge, tense, and stressed out.

Perfectionism can also make your self-worth particularly vulnerable as not reaching the (possibly unachievable) standards you set for yourself may result in you feeling like a failure.

Pursuing these personally demanding standards can have a significant impact on your wellbeing, and can lead to frustration, worry, social isolation, depression and a persistent sense of failure.
